Experiences

Backend Deveploper

PayMe   API Team   Oct 2022 - Present 2022

Technologies: ***Microservice, ******

Responsibilities:

- Handle wallet
- Cronjob for cancel expired order
- Multiple language
- One time password (otp)

Software Engineer

Kingfood Mart   Software 2 team   Aug 2022 - Oct 2022 (2 months)

Technologies: ***Nodejs, Expressjs, Redis, MongoDB, Rabbitmq***

Responsibilities:

- Refactor code and implement a new feature base on the past. It means that change from enqueueing and webhook to live inserts many.
- Fix the bugs.

VNVC.VN Project

VNUHCM - University of Science   Members: 4   May 2022 - Jun 2022 (2 months)

Technologies: Nodejs(Expressjs, Passportjs...), Redis, MongoDB

Responsibilities:

- Login and log out with ***Passportjs***. ***Use Redis to store the user information session***.
- Manage region-province to get the corresponding region which is contained in ***Redis*** that provide data faster than.
- Design a good MongoDB and Redis schema structure.
